SKILLS

Data & ML
Python, SQL, Pandas, NumPy, Seaborn, Scikit-Learn, XGBoost

Computer Vision
OpenCV, YOLO / YOLOv8

Generative AI & Agents
LLMs, AI agents, Ollama

Automation
n8n, Airtable, Shopify API

Full Stack
React, Tailwind, FastAPI, Node.js

Deployment & Tools
Streamlit Cloud, Hugging Face, Git & GitHub, Jupyter, VS Code

EDUCATION

BS Computer Science
Hazara University · In progress

FSC · 2022 – 2024
Chokara Science School & College, Karak

Matric · 2020 – 2022
Chokara Science School & College, Karak

CERTIFICATION

Python Ka Chilla (40 Days)
Codanics · July 2024

LANGUAGES

English, Urdu

Muhammad Qasim

Full Stack AI Developer

PROFILE

Full Stack AI Developer who builds AI products end to end, from raw data to live deployment. Hands-on projects in data analytics, machine learning, computer vision, generative AI, AI agents and workflow automation, with the front end, back end and AI layer built together.

EXPERIENCE

Data Science & Full Stack AI Development Mentorship

Devsil Software Co. — Dec 2025 – Jun 2026

- Cleaned, analyzed and modeled real datasets with Pandas, Scikit-Learn and XGBoost.
- Built AI agents and n8n automations, including a WhatsApp AI sales agent and a Shopify listing automation.
- Developed full stack AI web apps with LLM features, from front end to deployment.

PROJECTS

COMPUTER VISION

Parking Space Occupancy Detector — detects free and occupied spots from camera video.
YOLOv8 · OpenCV · Streamlit · Live · GitHub

Road Pothole Detection — finds and marks potholes in road images and video.
YOLO · Streamlit · Live · GitHub

FYP AI Detection — AI detection web app deployed on Hugging Face Spaces.
Machine Learning · Web App · Live · GitHub

Document Scanner — edge detection and perspective correction for photo scans.
OpenCV · Python · GitHub

GENERATIVE AI

NexaVerse — LLM-powered app with AI agent features.
LLMs · AI Agents · GitHub

MACHINE LEARNING & DATA ANALYTICS

Employee Attrition Prediction — XGBoost classification

TBM Penetration Prediction — Random Forest regression

Car Price Prediction · **Social Media Engagement Prediction**

Hospital ER Performance · **Retail EDA** · **Cricket** & **Student Marks Analysis**

All on GitHub
